

NOTICE TO RESIDENTS

ASPHALT RESURFACING PROGRAM

Please be advised that the following streets Marlene, Hoffmeyer, Barbara, Koontz, Ronald, and Buckhannon have been scheduled for asphalt resurfacing. The projected start date is July 16th.

A notice will be provided by the contractor the day before work is scheduled to begin on your street. The contractor will be working from 7:00 AM to 7:00 PM and you will have access to your driveway every night once the contractor has completed their work for the day. During the day, we ask that you do not park on any street where the contractor will be working.

During the milling process you will be able to drive on the street. After the road has been milled, there will be a few days of pavement preparation before the road is ready for resurfacing. Once the tack seal is placed the road will appear wet and cannot be driven on.

Questions: contact the Engineering Dept. @ 586-445-5445
